

NO COST

Vision Services

Vision To Learn is a nonprofit helping children see clearly in school and in life by using our mobile clinics to provide vision screenings, eye exams, and glasses to kids all at no cost to the student or their family!

We will be visiting your child's school soon, so please scan the QR code* below to complete a consent form for your student if you are interested in our services.

A completed consent form is required for all students to be eligible for vision care. Paper forms available, if needed.

*Open Camera App > Point to QR Code for 2-3 seconds > Touch link to sign-up.
