Meeting Minutes:

Mr. Cook highlighted and welcomed feedback on the allocation of funds included in our Title 1 Planning Allotment for SY19-20. He explained that the funding received to date (~\$133,000) will be about 70% of the full funding that we are expected to receive for SY19-20. The majority of the planning allotment has been devoted to funding two of our three BMTs for the upcoming year, with the remaining funds supporting the salary differentials for our staff that are a part of Success by Design as well funds for staff development for beginning teachers in the first week of August.
