APRIL ALCOHOL AWARENESS MONTH

TALK IT UP LOCK IT UP PSA

April is Alcohol Awareness month and one of the community groups that we partner with is Anuvia Prevention & Recovery Center whose Talk It Up. Lock It Up! initiative that aims to bring awareness to youth access to alcohol in homes.

M.A.D.D. LUNCHTIME PRESENTATION
Mothers Against Drunk Driving

Using the Power of Youth program shared by M.A.D.D, Butler's DREAM Team held two lunchtime presentation sessions for students and teachers to come and learn more about the negative effects of alcohol. We shared ways to cope if struggling with alcohol along with refusal skills. We were also honored to have a victim speaker share how alcohol has affected her life.
Announcements from Dream Team

Spring Break Alcohol Awareness

Before Spring Break, members of Butler's DREAM Team passed out brochures and candy with alcohol awareness facts to show how harmful underage drinking can be.

A few Alcohol Awareness Facts...

- Every year in the U.S., roughly 5,000 people under age 21 die from an alcohol-related incident (car crashes, homicides, suicides, alcohol poisoning and other related injuries).

- Alcohol abuse is the 3rd highest cause of death in the United States with 88,000 deaths annually.

- Alcohol is a substance that impairs judgment when consumed and can lead to drinking and driving, unintended sexual activity, violence or other dangerous behaviors!

- Symptoms of alcohol intoxication and hypoglycemia (low blood sugar) are similar. Diabetics should monitor their blood sugar levels while drinking, as hypoglycemia requires appropriate medical care.
Dear Parents/Guardians:

Five thousand young people die from alcohol-related incidents each year, but have you thought about the number one place that kids get alcohol? It's not the store or the bar or from their friends. It's from homes just like yours. Joining with Anuvia, we are asking parents and adults in our community to secure and monitor the alcohol in their home. Think about where you keep your alcohol and how easy it might be for children to reach it. All of our children are precious and the more steps we can take (like securing bleach, firearms, and other dangerous substances) to protect them, the better. Fact: Alcohol can cause brain damage when young people drink it and it is the 3rd leading preventable cause of cancer. Alcohol is dangerous. Change how you treat alcohol in the home and keep your kids safe!

Sincerely,
Butler's DREAM Team
