The Strategic Plan

New Strategic Plan Website

- Progress monitoring
- Accountability
- Transparency

Our strategic plan enables excellence without exception.

Our vision and mission have driven our goals and guardrails, which collectively enable four pillars of excellence across our school system – academic excellence, people excellence, operational excellence, and engagement excellence.

Academic Excellence

People Excellence

Operational Excellence

Engagement Excellence

This information is the foundation for the Charlotte-Mecklenburg Schools continuous improvement process.

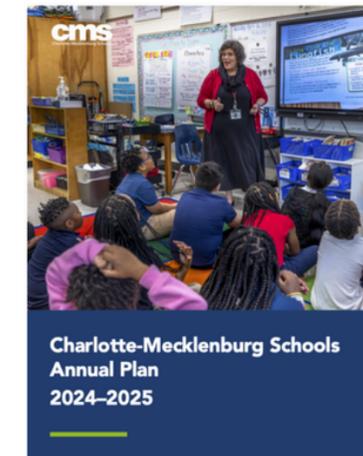

The Charlotte-Mecklenburg Board of Education establishes the mission, vision and core beliefs as well as the student outcomes focused goals and guardrails for the school district. The 2024-29 Strategic Plan is organized by four pillars of excellence. While the academic pillar is most closely aligned with the goals, the three other pillars - people, operations, and engagement - are critical to the achievement of the goals. There are 18 priorities in the strategic plan. Seventy (70) action-oriented strategies were identified to support the 18 priorities.

Measuring Progress

MEASURING PROGRESS

Ensuring progress on implementing the strategic plan is essential.

We will monitor progress on our district goals and guardrails by reporting district performance on a series of interim measures on an established cadence over the next five years. This is the primary method for tracking toward the goal achievement in five years; these reports are publicly available by clicking on this tab. We will monitor our progress on the strategic plan, the “roadmap” toward the goals, through internal monitoring routines throughout the school year and will issue a yearly District Annual Report that shares progress on an annual basis. Status updates will be provided to the Board of Education, as needed and appropriate.
