Brain Break:Set a timer or put on a song and see how quickly you can clean up a room in the house. Do you have a friend or sibling? Each persorcan pick a room to clean and race each other to finish.	Science: Body Systems You will complete a project about a human body system. First, choose a body system. Your choices are circulatory, respiratory, digestive, muscular, and skeletal. You will use a process called Clever. Clever stands for Claim, Evidence, Reasoning. You will start by making a <i>claim</i> about the body system you choose. A <i>claim</i> is something you believe is true. Choose a body system for your project. Write your claim about the body system. You will do the evidence and reasoning parts of the Clever process in future lessons. Brain Break:Without talking, eat a snack slowly. As you eat, close your eyes. Think about all the sensations, tastes, and textures you experience. (5.L.1.1)

Science: Body Systems Look at the claim that you wrote day 3. The next step as a scientist is to collect evidence about your topic. This can be done in a few ways, today we will research. As you read through the article(s) highlight or record any information that connects to your claim. https://kidshealth.org/en/kids/bodyarticles.html If you find new information that makes you ask new questions write those off to the side. Try to stay focused on your original claim. We will collect more evidence on day 11. (5.L.1.1)

(Day 11)	Math: Put Together/ Take Apart up to 100,000 Explore Put Together/Take Apart Problems within 100,000by reading about the problem structure on pages 8 and 9 of the <u>Google slide deck</u> . Solve Day 11, Problems 1-3 on page 12 of the slidedeck. Use a bar diagram and the US Standard Algorithm to solve these problems. (NC.4.NBT.4, NC.4.OA.3, NC.5.OA.2, NC.5.OA.3, NC.5.NBT.7) Fluency: Using the Commutative Property Complete Fluency Practice on the Commutative Propert∳or Day 11, also on slide 12. Brain Break:Can you make your body look like every letter of the alphabet?	Science: Body Systems Today we will continue to collect evidence, to make connections with the claim you made on Day 7. Now that you know a little more about theystem you are exploring, come up with a way to observe that system in your own body. Evidence is collected through observations, you can look and record how you see something, listen to a sound your body makes, feel for something in/on your body, taste food on your tongue or smell different scents in your environment. Remember torecord your observations in a chart to stay organized. <u>Click here for some suggestions of what evidence to collect based on the body systems and for a data table to record evidence collected.</u> (5.L.1.1) Brain Break:Sit in a comfortable position. In yourhead, slowly count from 0 to 20. As you count each number, take a breath in and out. Then, count backwards from 20 to 0. Try to only think about counting.
(Day 12)	Reading Marathon Read books of interest or books on the Reading Marathorlist about the topic and utilize the last five minutes to reflect on the content knowledge gained from your reading about this topic. Try to read for an extended period of time. Set a timer to measure your reading stamina.	
(Day 13)	Math: Compare Problems up to 100,000 Explore Compare Problems within 100,000 by readingabout the problem structure on pages 10 and 11 of the Google slide deck. Solve Day 13, Problems 1-3 on page 12 of the slidedeck. Use an open number line, a bar diagram, and the US Standard Algorithm to solve these problems. Explain the pattern you notice in the differentsets. Can you come up with your own set of facts that would match this pattern? Brain Break:Complete 25 of the following- skip, jump, lift knees, and walk backwards.	Science: Body Systems Today you will do the reasoning part of Clever. Remember, Clever stands for Claim, Evidence, Reasoning. Look at your claim. Study the evidence you gathered. Does your evidence support your original claim or not? Write out your reasoning statement using the evidence you collected. Include new questions you have about the body system you chose. If you have time, repeat the Clever process with another body system using the materials we shared. (5.L.1.1) Brain Break:Find a place to walk back and forth in a line. As you walk, slowly lift your foot and place your heel on the ground. Feel your bodyweight shift into that foot. Continue with the other foot, thinking about the steps as you go.
