

Harding University High School

Replacement Project

The 2023 general obligation bond referendum presents us with a unique opportunity to enhance the learning environment and educational opportunities for our students. It aims to offer more academic options, alleviate overcrowding, and support safe schools. Here are the highlights of the project that will impact our school communities:

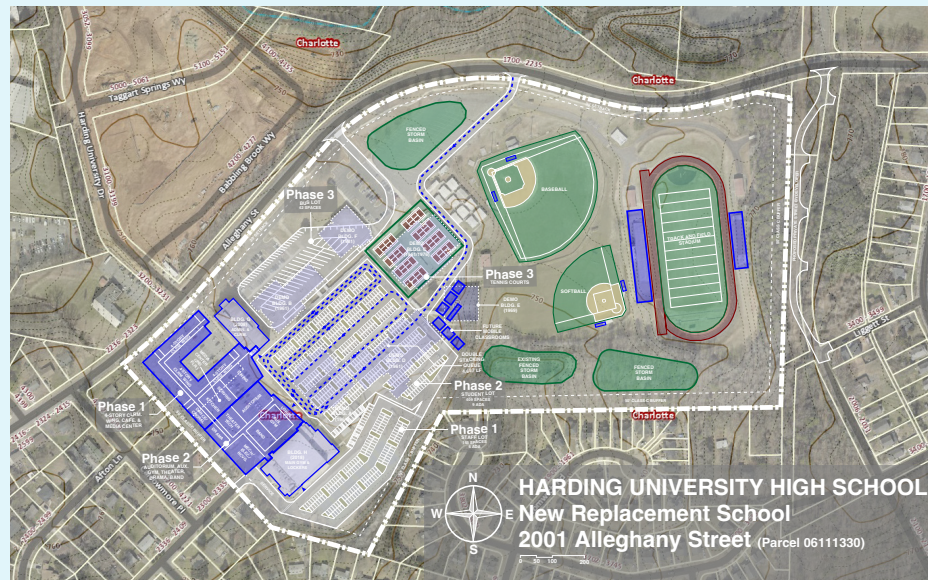

School Board Member District 2

The Harding University High School bond project represents the final stages of development, encompassing the implementation of a comprehensive athletics package and the replacement of the remaining campus facilities. This initiative aims to provide students with state-of-the-art sports amenities and an enhanced learning environment. By integrating a range of athletic resources and modernizing the campus, the project seeks to offer a well-rounded educational experience that promotes both academic and physical development for students at Harding University High School.

Estimated Cost: \$202,879,499

Questions for CMS?
