

New Second Ward Medical & Technology High School

New School Project

The 2023 general obligation bond referendum presents us with a unique opportunity to enhance the learning environment and educational opportunities for our students. It aims to offer more academic options, alleviate overcrowding, and support safe schools. Here are the highlights of the project that will impact our school communities:

School Board Member District 2

The New Second Ward Medical and Technology High School bond project encompasses the establishment of a comprehensive magnet high school at the former Metro site. This new facility will specialize in medical and technology education. The project also involves the relocation of the existing program from Hawthorne High School, creating an advanced and focused learning environment that equips students with the skills and knowledge needed for success in medical and technology fields.

Estimated Cost:
\$176,810,460

Questions for CMS?
