PREAMBLE
The mission of Charlotte-Mecklenburg Schools is to create an innovative, inclusive, student-centered environment that supports the development of independent learners. Adjusting the CMS K-12 Grading Plan allows for students to receive specific feedback for continuous growth, academically and socially-emotionally, ensuring all students are set up to be independent and successful learners. Charlotte-Mecklenburg Schools believe grades should provide students and families with actionable information, reflect a student’s achievement on grade-level standards, and support a student's motivation to learn.

Charlotte-Mecklenburg Schools believes that to ensure success in each student’s K-12 experience, we must provide ample academic opportunities for students to prepare, rehearse, and then perform.

EFFECTIVE GRADING PRACTICES

To the greatest extent possible, grades should reflect achievement of intended learning outcomes and mastery of content standards.

Grades will not be used in a punitive manner for behavior or extra credit awarded for non-academic tasks, attendance, or other social expectations.

Students need frequent low-risk opportunities to practice their new learning to allow for misconceptions to surface and be addressed to improve their learning.

Students should have opportunities for re-teaching and additional learning opportunities to improve their level of content mastery that are not limited to before or after school tutoring.

To improve learning, students need regular feedback from teachers that is timely, specific, and focused on mastery of content standards.

ASSIGNMENTS

● Assignments should be standards-aligned and worthy of student completion.
● Assignments should allow for students to demonstrate learning through a variety of modalities (i.e. written, conferences, discussions, multimedia, digital, etc.).
● Additional practice/re-teaching will be provided to students who do not achieve initial mastery on “Perform” assessments before students are re-assessed.
● All assignments will be graded using a 100 point scale.
● Students with a 504 plan, Individualized Education Program (IEP) or who are identified as English Learners (ELs) should receive appropriate accommodations and amplifications on assignments and assessments to allow them to engage in on-grade level content.
## ASSIGNMENT CATEGORIES BY SCHOOL LEVEL

<td>Additional learning opportunities based on student needs and re-assessment opportunities</td>
</tr>
</tbody>
</table>
re-assessment opportunities on “Perform” assessment/task will be provided:
● Students will participate in new learning opportunities meeting the student needs (i.e. small group instruction, Dreambox, video instruction, extra assignments) and be reassessed using a parallel assessment to show mastery within a 3-week period.
● Students can earn up to 80% on the re-assessment when completing additional learning opportunities.
● Students have the opportunity to retake a performance task.

TEACHER EXPECTATIONS
KEY PRACTICES
● Prioritize teaching essential, grade-level standards and assigning tasks/assessments that are aligned to the standards. The standards being addressed must be listed on all “Rehearse” and “Perform” assignments.
● If a student is absent for a “Perform” assessment/task, the teacher will allow the student time during class to ensure completion. Students can, but should not be expected to, make up a “Perform” assessment/task before/after school.
● Teachers will provide students with specific, timely, content-specific feedback on assignments in the “Rehearse” and “Perform” categories. Quizzes and formal assessments will be graded and entered into PowerSchool within 5 days and provide students with their level of mastery of the standards assessed. Rubrics will be used to provide feedback on projects and writing assignments within 10 days of submitting and entering into PowerSchool.
● If “Perform” assignments are given at the end of the quarter, students must still have the opportunity for additional learning and re-assessment opportunities. Teachers would need to adjust the student’s grades after re-assessing the student by using the school’s grade change process.
● By the end of the quarter, adjust any individual assignment/assessment grade, regardless of grade category, lower than 50 to a 50% when a reasonable attempt to address the minimum requirements of the task have been made by the student. Note the actual grade in the comments section in PowerSchool. If no attempt to complete minimum expectations of the task was made, the grade shall remain lower than 50%. High school midterms & final exams (teacher-made & State) are the only exceptions and the actual grade earned will be recorded in PowerSchool.

One re-assessment opportunity will be given for each Perform assessment (except midterms or final teacher-made and State exams).
● Students may earn up to 80% on a re-assessment after completing re-learning opportunities.
● Students may retake portions of assessments for which they have not reached mastery, but the teacher should adhere to re-assessment grading terms. (Final grade to not exceed 80% on retake.)
PLC ROLES
- PLCs will create/use standards-aligned common formal assessments, projects, writing assignments for “Perform” tasks and will track and communicate students’ level of mastery on each standard assessed. Adopted curricular area mid-unit and end of unit assessments will be “Perform” tasks.
- PLCs will create/use consistent rubrics for projects and writing assignments to measure students’ mastery of grade-level standards.
- PLCs will remain consistent in which assignments are graded and entered into PowerSchool.

504 PLANS - INDIVIDUALIZED EDUCATION PLANS - ENGLISH LEARNERS
- For students with a 504 plan or Individualized Education Plan (IEP), teachers should assess student work based on these accommodated assignments and assessments and not compared to their peers or other norm-referenced standards. While students with accommodations can receive below grade-level marks, these marks should be based on the students’ performance with specified accommodations. Additionally, if a student with accommodations is failing, the 504 or IEP team should reconvene to review and amend the plan as needed.
- For English Learners (ELs), initial formal assessments should not be amplified (adding language scaffolds for students with various language proficiency levels to ensure equitable access to grade level content). The retest, as well as informal assessments, should be amplified based on the student’s English Proficiency Levels. Students should receive a grade with appropriate instructional supports, language supports, and testing accommodations provided according to the student’s proficiency levels. Students should not be limited from receiving top grades in a class even with amplified assignments.
- The EL Committee should meet to determine further supports needed for the student if the instructional supports, language supports, and accommodations specified in the English Learner (EL) plan have been implemented and the student either makes no attempt or has not shown progress toward language acquisition and content mastery. English Learners can demonstrate the mastery of content in various formats such as projects, portfolios, etc.
- Per Federal Guidance, ELs should not receive grades of “D”, “F”, or other failing grades on assignments solely due to their limited English proficiency.

EXPECTATIONS FOR PROVIDING FEEDBACK
Grading and feedback should provide students and families with: actionable information that reflects the student’s achievement, and supports the student’s motivation to learn.
- Teachers will provide students with specific feedback on their level of mastery of individual standards on all “Perform” assignments/assessments. Teachers will also provide re-teaching/additional learning opportunities for students to improve their level of understanding before taking a retest to show mastery.
- K-2 students will receive standards-based report cards at the end of each quarter.
- K-5 teachers will use curriculum embedded checklists, conferring, and student conferences to provide students with feedback about progress towards standards mastery on “Rehearse” assignments/tasks.
- K-5 teachers will utilize tracking systems and conferring to provide weekly and quarterly feedback on General Learner Outcomes (GLOS).
- In 6-8, teachers will use small group/individual instruction to support reteaching and to provide students with feedback about progress towards standards mastery on Rehearse and Perform assignments/tasks.
- When rubrics are utilized, specific feedback will be provided to support the highest outcome level on rubric.
- Feedback will be based on the assignment's standard-alignment and/or lesson learning target.
- MasteryConnect standards feedback reports will be used quarterly for courses with adopted curricula.

ADDITIONAL RESOURCES

GRADING PLANS FOR NCVPS AND EDGENUITY COURSES
- Edgenuity and NCVPS are CMS’ virtual partners. Both platforms have their own Learning Management Systems that are updated by teachers outside of Charlotte-Mecklenburg Schools. As a result, their grading plan does not mirror CMS’s current grading plan.
- Schools will need to communicate this to students prior to enrollment in either NCVPS or Edgenuity courses.
- Please note that with both platforms, CMS schools report the final results of a student’s performance.

NCVPS and Edgenuity
