

Greetings Falcon Families,

For the 2023-24 school year, Rea Farms STEAM Academy is aligning with the CMS Technology Department to support an environment that delivers high quality reliable technology services to all students. This will be done by providing each student with meaningful and safe access to the Internet and other curriculum based online programs through the use of either an iPad (K-2nd Grade) or a Chromebook (3rd-8th Grade). In order to ensure that your student obtains the most from their one-to-one technology experience, it is expected that they abide by the following rules at all times when using their assigned device:

1. Student will not peel off any Stickers, Labels, or Asset Tags placed on the device
2. Student will complete the Digital Citizenship Certification (during Media Special Area Class for elementary school and during Advisory for middle school)
4. Student will not intentionally damage the device
5. Student will report all problems or damages immediately to both their homeroom teacher and the Media and Technology Coordinator, Ms. Meagan Driggers
6. Student will not take the device off school property
7. Student will use the device as designated by the teacher and for educational purposes only
8. Student will not loan or give their device to another student

Failure to adhere to the above rules could result in loss of device privilege on either a temporary or permanent basis depending upon severity and/or frequency of violation. Additionally, if a device is intentionally damaged, lost, or stolen, it will be the responsibility of the student/parent/guardian to pay the following fines before device use can continue. A letter and invoice will be sent home should damage, loss, or theft occur and all payments should be made through the Online School Payments tab on the Berewick Elementary Website.

\$10 for Charger

\$15 for Device Damage

\$50 for Device Replacement

Thank you so much for your continued support of technology and its safe use at Rea Farms STEAM Academy!

Meagan Driggers

Media & Technology Coordinator
